IN MUSIC... *contrast is desirable*

BY THE contrast of instrumental timbre, the contention of rhythm, and the use of opposing dynamic effects the spirit and brilliance of a musical score are revealed.

But this contrast which so enriches our musical masterpieces is the target for attack in prosthetic dentistry. Success in dental research is measured by reduced contrast in the development of denture materials to blend unobtrusively in the mouth. In this respect, LUCITONE has gone beyond hoped-for-goals.

Its soft, translucent coloring "borrows" life from the tissue it conceals. Against the natural gums it is nearly undetectable because it is indistinguishable. This "lifelike" identity is sensed by the wearer. It results in restored self-confidence.

Contributing to this feeling of confidence is the "neutral" character of LUCITONE. It is without taste and odor. It feels fresh. The mouth does not have to adapt LUCITONE through warmth or moisture. LUCITONE is at once a part of its environment.

AMERICAN DENTAL ASSOCIATION HOUSE OF DELEGATES MEETING POSTPONED

The meeting of the House of Delegates of the American Dental Association will not be held in Chicago in early fall.

The Board of Trustees voted to petition the Office of Defense Transportation for permission to have the meeting on September 17 to 19.

The petition was considered by the Convention Committee of the ODT which recommended that the meeting be deferred to a later date.

The meeting therefore is indefinitely postponed.

Health and Accident Insurance Plan Approved

Board of Directors Accepts Standard Accident Insurance Company Program

The Insurance Committee, appointed to study health and accident or disability insurance plans for the membership of this Society, has completed its investigation and recommended the adoption and endorsement of a specific group disability plan at the last meeting of the Board of Directors of the Chicago Dental Society. This plan is the one developed by the Standard Accident Insurance Company and received the approval of the Board. Before reaching a decision many plans of other companies writing this type of insurance were carefully studied, investigated and compared. None of them, in the Committee's opinion, however, offered as many advantages from the standpoint of cost, coverage and operation as the plan recommended.

COMPANIES CONSIDERED

Early in the investigation of disability plans the Committee learned that greater benefits could be obtained at a premium saving of thirty to forty per cent by group purchase of disability insurance rather than by individual purchase. Because of the definite advantage of group disability insurance the Committee determined to find the plan best suited to the needs of the greatest number of our membership. It asked every insurance company writing group health and accident insurance to submit plans. Among

the companies who cooperated were the following: Commercial Casualty Insurance Co., Continental Casualty Co., Income Guaranty Co., Loyal Protective Life Insurance Co., National Casualty Co., North American Accident Insurance Co., Provident Life and Accident Insurance Co., and Zurich General Accident & Liability Insurance Co., Ltd. Other companies contacted were the Aetna Insurance Company, Federal Life Insurance Co., John Hancock Mutual Life Insurance Co., Massachusetts Indemnity Insurance Co., Metropolitan Life Insurance Co., Occidental Life Insurance Co. of California and Travelers Insurance Co. None of the latter underwriters, however, write health and accident insurance for professional groups or associations.

BENEFITS

The disability plan which has been submitted by Standard Accident Insurance Company will pay a weekly benefit for accidental bodily injury, sickness or disease during the period of total disability from the eighth day for a maximum of 104 weeks. The weekly benefit paid will be \$25.00, \$35.00 or \$50.00, depending upon the plan selected by the member. It will also pay a principal sum of \$1,000.00 for accidental death or dismemberment. The \$1,000.00 prin-

principal sum is a standard provision in all of the policies but it may be increased at the option of the insured for an additional premium of \$2.00 per \$1,000.00. The plan will also pay surgical benefits on a varying schedule depending upon the type of operation up to a maximum of \$225.00. The surgical benefits will be paid directly to the insured and not to the surgeon. The full amount listed in the schedule is payable regardless of the charge by the surgeon.

The premium for a policy that will pay \$25.00 weekly benefit, \$1,000.00 principal sum and maximum \$225.00 surgical benefit is \$47.00, a \$35.00 weekly benefit, \$61.00 and a \$50.00 weekly benefit, \$83.00. This plan may be obtained without the surgical benefit if the Society desires and the premium will be reduced \$9.00 per year. It is the recommendation of the Committee, however, that the surgical benefit of a maximum of \$225.00 be included in the policy as a standard provision.

ENROLLMENT REQUIREMENTS

The company provides an initial enrollment period of sixty days during which fifty per cent of our membership must enroll in the plan to make it effective. If this plan is adopted by the Board the company expects to begin its sales campaign just after Labor Day and complete enrollments by November 1, which will become the effective date of the policy. During the enrollment period all members of the Society up to the age of seventy who are actively performing their professional duties will be accepted regardless of physical condition, sex, race or other insurance.

After the close of the initial enrollment period members over the age of sixty will not be accepted by the company and all other members who wish to enroll must complete a detailed application for insurance. The company reserves the right to accept or reject the applicant. Women dentists will be accepted for insurance by this company only for the \$25.00 weekly benefit. New members of the

Society will be accepted by the company if they apply for coverage within sixty days of the time they become members. Members returning from the Armed Forces to full time duties of dentistry will also be accepted for coverage if they apply within sixty days of the time they resume the practice of dentistry. These new members and veterans will be accepted by the company regardless of physical condition, sex, race or other insurance.

Because several health and accident insurance companies have been aggressively selling disability insurance to our members during the past two years arrangements have been completed with the Standard Accident Insurance Company so that a member may purchase its plan during the initial enrollment period for the minimum weekly benefit and later on if he desires increase it to the maximum weekly benefit provided he notifies Standard on a form which they will provide that he desires to do so on the expiration date of some of the disability insurance he is now carrying.

THE STANDARD COMPANY

The Standard Accident Insurance Company has its home office in Detroit, Michigan. The company was chartered in 1884 and is now one of the country's oldest and largest health and accident insurance companies. It operates throughout the forty-eight states, the District of Columbia, Alaska, Hawaii and Canada. As of the end of 1944 the assets of this company totaled \$41,712,868.40, with a surplus to policy holders of \$13,678,749.13.

If this disability plan of the Standard Insurance Company is approved by the Board of Directors the company will mail a prospectus of the plan and application form to every member of the Society. Each member will be given ample opportunity to study the plan and decide whether or not he wishes to enroll. About two weeks after the initial letter has

(Continued on page 11)

Registration Opens for Fall Course in Dental Socio-Economics

Committee Announces More Details—Subjects and Leaders Chosen

Now is the time to cancel all appointments for Wednesday afternoons, October 10 to November 28. Those are the dates of the Study Course in Dental Socio-Economics jointly planned by the University of Chicago and the Chicago Dental Society. The course will consist of eight sessions and each session will be held on Wednesday afternoons from 2:00 to 4:30 in order to permit as many members as possible to attend.

SUBJECT HEADINGS

The course will present pertinent information on different aspects of the social and economic problems confronting America today, with special reference to the problems of dentists and dentistry. The eight subject headings chosen will, the Committee believes, be of interest to all dentists. They are as follows:

Dentistry and the Changing Order.

The Health of the American People.

The Ability to Pay for Dental and Medical Care.

Plans for Dental and Medical Care.

Health Service Plans Conducted by the Medical, Dental and Affiliated Groups.

Organization Through the Action of Consumer Groups—Receivers of Medical and Dental Care.

The Professions and Public Policy Concerning the Health Services.

The Formulation of Public Policy Concerning the Health Services.

Two speakers will participate at each session, one from the University of Chicago, who will discuss basic socio-economic trends and problems, keyed as much as possible to dentistry, and one from the Chicago Dental Society, who will discuss the dental aspects of the problems presented by his co-essayist. The names of the essayists and their subjects will be published at a later date.

DISCUSSION LEADERS

The last forty-five minutes of each session will be devoted to open discussion by those in attendance, and guided by a discussion leader. The discussion period should be especially interesting and provocative as the following men have agreed to act as discussion leaders: Robert W. McNulty, William P. Schoen, Harold Noyes, Charles W. Freeman, Robert G. Kesel, Allan G. Brodie, George W. Teuscher and Leo W. Kremer.

For the sake of convenience to all Society members, the classes will be held in the loop. Information regarding the place of meeting will be announced later.

Accommodations will necessarily limit attendance, therefore, the Committee strongly urges that reservations be forwarded to the Chicago Dental Society office as early as possible.

Remember the dates and time—each Wednesday afternoon from October 10 to November 28, from 2 to 4:30.

Price of admission—\$9.00, including tax. Make your check payable to the Chicago Dental Society and forward it to the central office, 30 North Michigan Avenue.

NEWS AND ANNOUNCEMENTS

DENTAL HYGIENIST BILL PASSES LEGISLATURE

A bill to register dental hygienists in the state of Illinois has successfully passed the Senate and the House and awaits the governor's signature to make it law. The bill, known as H.B. 694, was introduced into the House by Representatives Nick Keller, David Hunter, John Lavezzi, J. H. Downey and George B. Shaw. It originally passed the House by a vote of 117 to 1 and then went to the Senate, where several amendments were added. The amended bill passed the Senate by a vote of 33 to 8. The House accepted the Senate's amendments and approved the bill by a vote of 128 to 0. The final House approval was obtained during the last hours of the closing session of the 64th General Assembly.

DENTAL CARIES STUDY IN MICHIGAN

Examinations are now being made by dentists of the U. S. Public Health Service of 5,000 school children in Muskegon, Michigan. Muskegon has been chosen as the control city in the fluorine experiment which is being conducted in Michigan, and Grand Rapids has been selected for determining the effect of adding fluorine to the city drinking water. Dental records have been secured of some 28,000 school children in Grand Rapids, and periodic examination will be made of the school children in both cities to note any changes that may occur in the dental caries rate.

AMPLE PENICILLIN IS REPORTED AVAILABLE

Many communities are now reporting that ample supplies of penicillin are available for those needing it. Since

the War Production Board released its restrictions on March 15 approximately 885,000,000 units of penicillin have been released for civilian consumption.

DENTAL BILLS PASSED BY CONGRESS

The bill to provide more efficient dental care for the personnel of the United States Navy has passed the Senate. The purpose of the bill is to reorganize the Bureau of Medicine and Surgery to give greater integrity for the dental service of the Navy. It directs that the reorganization be consummated within six months.

Another bill removing the limitation on the right to command of officers of the dental corps of the Army has passed both the Senate and the House. This bill permits equality between medical and dental officers in the right to command.

RELEASE OF DENTISTS FROM THE ARMED FORCES

The Deputy Army Surgeon General, George F. Lull, has estimated that two to three thousand physicians and about one thousand dentists should be available for discharge from the Army by the end of this year. General Lull stated that the heaviest load on the Medical Corps will be reached during the fall. The wounded still must be transported home from Europe and soldiers scheduled for redeployment or discharge must be given physical examinations. He believes most physicians and dentists will return to civilian practice when released. While the Veteran's Administration has sought medical men, its most urgent requirements were met by the assignment of about three hundred medical officers to that agency. At the present time no Army doctors will be assigned to the Vet-

eran's Administration unless they desire the appointment.

S. F. BRADEL ACCEPTS ILLINOIS APPOINTMENT

Dr. Sigmund F. Bradel has been appointed associate professor and head of the Department of Dental Roentgenology at the University of Illinois College of Dentistry. For the past nine years he has been associate professor of dentistry at the University of Chicago in connection with the Zoller Dental Clinic.

Dr. Bradel has had considerable experience in dental teaching. Following his graduation from the University of Illinois in 1928, he served on the staff in the Crown and Bridge Department of that institution until 1930. He left at that time to accept a position in the dental division of the medical school of Virginia, where he later became director of the dental clinic. In 1936 he terminated his appointment in Virginia to assume the Zoller position.

Dr. Bradel will begin his new duties at the University of Illinois on September 1 and will divide his time between teaching and private practice which will be limited to roentgenology.

CHICAGO WAR FUND AIDS HOLLAND

Approximately half a million Hollanders, exhausted from "existing" on scanty food rations, will be helped to live again by a six-ton shipment of protein hydrolysates, a new drug capable of combating starvation, now en route to a Dutch port.

American Relief for Holland is planning to follow this shipment with others, Walter P. Paepcke, general chairman of the Community and War Fund of Chicago, explained today. The agency is one of many organizations supported by the Chicago Fund.

A new chemical development compared in effectiveness to sulfa and penicillin drugs, hydrolysates, are being used extensively in Europe to restore amino acids and protein reserves depleted by starvation rations, Paepcke explained.

GRANT PARK CONCERTS

Grant Park's free open air concerts, presented each season by the Chicago Park District, opened June 27 at the famed Band Shell, foot of 11th Street, and will continue each night, except Mondays and Tuesdays, until August 19.

Symphony concerts will be given Wednesdays, Fridays and Sundays at 8 p.m. On Thursday evenings splendid programs will be presented by the U. S. Army bands for the first four weeks and by U. S. Navy talent for the balance of the season. Guest soloists of concert and grand opera fame will feature these Army and Navy programs arranged through the courtesy of Vice Admiral Arthur S. Carpender, Commandant, Ninth Naval District, and Major General Russel B. Reynolds, Commanding General, Sixth Service Command. On Saturday evenings, except August 18 when there is to be no concert, the distinguished Cavallo's Symphonic Band of sixty players will present brilliant programs featuring well-known Chicago soloists.

DR. SARA HARRIS 1862-1945

One of the oldest members of the Chicago Dental Society, Sara Harris, died June 10, 1945. She was graduated from Ohio College of Dental Surgery in 1882 and received a second dental degree from Northwestern University in 1902. In 1906 she became a member of the dental societies and continued her membership until she retired from practice in 1932. That date marked the completion of fifty years in the practice of dentistry. Northwestern University conferred upon her honorary membership in Omicron Kappa Upsilon fraternity and the Ohio College awarded her a gold medal for proficiency in operative dentistry. Dr. Harris was elected to retired membership in the Chicago Dental Society in 1939 and was a life member of the Illinois State Dental Society.

LETTERS

Editor's Note: *The letter published below was received by Leo Kremer, Chairman of the Procurement and Assignment Service of the Sixth Service Command from Lt. Col. Kenneth Cofield, formerly liaison officer between the Office of the Surgeon General and the American Dental Association.*

May, 1945
Along the Ledo Road
Burma

Dear Leo:

Been thinking about you and the best way I find to say hello in a case like this is to take time out and write, so here goes.

You no doubt were not too surprised to hear that I had taken an overseas assignment knowing that for some time I had wanted a station where there was some action. Here I am at my final destination which is pretty well forward, and very happy.

While the job at the A.D.A. needed attention and the dental procurement needed someone, I was content to let my own feeling about foreign duty go by the board so that I could render my small service there. When it was largely over and did not demand full time I at once asked for an overseas appointment. The interim between asking and being assigned was so long I thought they had forgotten me until one day I received notice to be gone the next, which is the reason I did not telephone to say so long.

Am here as chief of the dental service in a new general hospital set up to take casualties from territory East, South and North of us. When I first arrived I was assigned temporarily to the 20th General Hospital to await the time when the clinic here was completed and the supplies and equipment available. I then came on here in a new jeep over a long stretch of the Ledo or Burma Road. It's the one we fought to build so that China could have a steady flow of sup-

plies. It is wonderful to see what our engineers accomplished in building that road through jungles and hazardous mountain ranges. In peace time few white men ever came out of there alive and, if they did, they wrote a book about their experiences. Now it is a highway teeming with the activity of war. Took me over two days to drive it and it was a great sight.

My staff includes five dentists and nine enlisted men, who after three days and nights of work had the station ready to receive patients. Then we started in to add a few refinements, like painting the canvas that separates the offices, painting the packing crates that serve for cabinets, linen shelves, sterilizer tables and all the rest that you are familiar with. I have a nice big laboratory, five operating rooms, one prosthetic, one surgery and one x-ray room. In my surgery I have set up a dandy Ritter master unit with aspirator and all the trimmings. There is nothing finer anywhere, and it, plus my Fischer X-ray, really makes the place pretty swell. All the chairs are of the field type with wall lights and electric engines. Each room has running water for washing hands and the Ritter, of course, has a fountain cuspidor. Our water supply is from a big river close by, filtered and chlorinated but can't be used in the mouth. All for consumption is boiled in addition to the above precautions. We have five large ceiling fans through the length of the clinic and three eighteen inch G.E. oscillating electric fans between the operating rooms. They help a hell of a lot in this terribly hot and humid climate.

All in all in this canvas and mosquito netting building we have a dental group that is rendering good service at a spot where it is badly needed. Of course, it does not look like Gardiner General Hospital nor is there a bathroom and ice water in every tap, neither does the mail contain an invitation from the Chicago

Dental Society to have dinner at the Palmer House. On the contrary as I have told you the clinic is canvas and mosquito netting, the bath is about a hundred yards away over what used to be Jap trenches, and the drinking water comes from lister bags.

We are located on a big river that flows down from the mountains in China, where a lot of the fellows go swimming in the evening. I've been in a few times and plan to go this evening. The town (or what was a town) close by was once, not too long ago, one of the finest cities in this part of Burma, now there is not more than one building left standing. The natives are slowly coming in from the forests to find home and friends gone. This modern warfare leaves very little for people to come home to. Thank God our country was not subjected to the kind of treatment that practically

the whole world has had. Few of us realize how really close it was.

Since I left Chicago I have visited Newfoundland, Azores, Casablanca, Tripoli, Bengazi, Cairo (there's a place), Jerusalem, Iraq, Karchi, India and Agra, India, the site of the beautiful Taj Mahal, and on and on to my station. I have also been to Calcutta since locating here, while back the line away I saw mysterious Tibet, high in the mountains.

Have rambled on a long time but have enjoyed talking with you and hope that you will find an opportunity to drop me a line. Give my very best to Mrs. Kremer and all my friends at the Chislers Club. I still have a key to the Club which has really traveled around. With you all willing and in face of the grand V-E day, I hope to use it before too long.

With kindest regards, I am

Ken Cofield.

HEALTH AND ACCIDENT INSURANCE PLAN ADOPTED

(Continued from page 6)

been mailed the company will contact members who have not applied for insurance by telephone and arrange an appointment to discuss this insurance with them.

In the sale of the plan the company will use salaried employees who have specialized in this type of insurance, and who will be brought to Chicago from their numerous branch offices throughout the United States. It is the committee's belief that the use of these men in the solicitation of the policy will eliminate all chance of misrepresentation of the plan and high pressure sales technique.

The Standard Accident Insurance Company has an excellent reputation for promptness of claim payments. All claims will be handled through its branch office in Chicago so that every payment will no doubt be facilitated. In case any claim dispute arises between a policy

holder and the company a committee of three will be selected to arbitrate the claim. The committee will consist of a member of the Society, a representative of the insurance company and a third person agreeable to both groups.

If this plan is adopted, the Standard Accident Insurance Company will execute a master agreement with the Society and each insured member will receive an individual policy. The individual policies issued to the enrolled members may not be terminated by the company except for nonpayment of the premium on the due date or during the grace period, for ceasing to be actively engaged in the practice of dentistry, for discontinuance of membership in the Society or the cancellation of the master contract with the Society.

The insurance committee consists of H. A. Hartley, I. A. Oveson, M. E. Zinser, and R. I. Humphrey, Chairman.

Roster of Associate Memberships of CHICAGO DENTAL SOCIETY For 1945

In this issue a portion of the associate membership roster is presented. Please check your name for correct spelling and address, and forward any corrections to the Secretary, 30 North Michigan Avenue, Chicago 2, Illinois. Retain this roster for future reference.

NEWS OF THE BRANCHES

NORTH SIDE

What a day was June 27! Rain in the morning, golf in the afternoon, more rain and hail in the evening, but under the leadership of our president, Z. D. Ford and Sports Chairman Bill Young, a very fine and sociable time was enjoyed by everyone in attendance. Congratulations, Bill, you did a fine job in arranging for those beautiful prizes and super beef dinner, whose succulence was extolled by our comedian, Art Blim . . . Highlights of the day: The first prize winner under the Peoria system was none other than genial, affable T. D. Olson with a 79 low gross score. Ted was telling me about his five month old twin boys. We hope they do Ted proud, both as dentists and golfers. Second prize was awarded to polite and handsome Charles Crotan and third prize to that man-about-town, my esteemed friend, Roland A. Weber. Harold Oppice's game was excellent, according to Mel Zinser, except on the hole where he was trapped in the woods. However, because of Harold's ability to come through in tight places the game was finally resumed in proper order. Our dapper secretary, Ed Luebke, came down from Wisconsin to participate in the day's festivities. Ed was attired very very properly for the occasion. Regrets were sent by Al Young, who was on his vacation at the Four Season's Club near Iron Mountain, Michigan and Leo Kremer, who has attended almost all of these events. According to two of his buddies, W. G. Burkhardt and August Swierczek, our president is starting a few new rules in golf. Judging by his score, these rules and methods certainly get results. We missed some of the familiar faces. Where were you fellows??? Basil Cupis brought two guests, Bernard Borst and Phil Mijore, who had a nice game. By Basil's own statement, O. A. Helmer is too much

for him on a golf course. Ray Bell, our distinguished guest, not only played a brilliant game of golf but also received the honor prize for the evening. . . . From E.T.O. came Edward Asher, combat infantryman of the Blackhawk Division, and from the Army-Navy General Hospital came Captain Carl Asher to spend a happy month with their brother, Sidney Asher. . . . M. G. Swanson is back at his office feeling fine after a medical checkup and a two weeks' vacation. . . . A mistake from pen to press—Julius Ferm has not moved to his summer home at Edgerton, Wisconsin, but does go up there often during the summer.—*Russell G. Boothe, Branch Correspondent.*

NORTH SUBURBAN

Dr. Tucker, Evanston Health Officer, talked before the Monday luncheon group at the Orrington Hotel, June 18. The fluorine program, with Dr. Blayne as scientific director, is an outstanding example of progressive civic action with competent professional guidance. Dr. Tucker and the dental committee, Ed Ryan, Bob Lasater and Zeke Smothers, are to be congratulated. . . . George Schnath is home after more than eighteen months in the Pacific. Just now he is on a short fishing trip at Hayward, Wisconsin, and will report for orders at Great Lakes on the 12th of this month. . . . LeRoy Hedges will spend the last week of July and the first week of August in Galesburg, Illinois, at the home of his wife's folks. . . . Herman Kelder is still in Guam. . . . Al Bushey and Al Wurth are trout fishing at Watersmeet, Wisconsin, for a few days. . . . The Northwest Study Club group had an outing at Rob Roy Country Club last week. The details are not known but Charlie Cameron seems to have some complaints about the results. . . . Speaking of complaints, Bob Reinardy may have one. He shot

into a trap on the 13th hole at Westmoreland the other day. An obliging spaniel replaced the ball at Bob's feet. This brings to light some of the most subtle of golf discussions. Should he have been in the trap in the first place and was the spaniel trained as a retriever? . . . Eddie Baumann will leave Monday, July 9, for Horseshoe Lake near Spooner, Wisconsin. He needs the rest after his recent purchase of 1200 pounds of frankfurters for a Fourth of July rally. . . . Charlie Baker left for his summer home in Minocqua, Wisconsin, on July 2. He will be back on July 23 with many large fish. . . . Paul Wilcox is vacationing on Lake Winona near Warsaw, Indiana.—*Henry Conley, Branch Correspondent.*

NORTHWEST

Despite a bit of drizzle which marred an otherwise perfect day, our June outing was a huge success. The supply men and guests were outspoken in their praise of our sports committee for its efforts in planning the event. Golfers taking top awards for proficiency in a minimum of swings were Charlie Crotan of the North Side branch, a classmate of ours; Iver Oveson and Ben Goldman. Many other prizes were given to the holders of lucky dinner ticket numbers. The dinner was mighty good considering the shortage of red meat these days, and the vocal gymnastics assisted by the sound movie kept the crowd in good spirits. . . . President Tom Wright called a meeting of his chairmen to discuss plans for the coming year. Tom has appointed brother-in-law Mark Spencer to act as program chairman. This should insure high calibre branch meetings. Might say that Tom is rapidly developing into an orator of no mean ability, judging from the sample he delivered at the golf dinner. He also did well at the session following dinner, needing assistance to carry his booty to the bank next day. . . . Frank Cooney is feeling pretty chipper about being a brand new papa. . . . Norm Kirschner and Morrie Schnedier have returned

from their annual jaunt to the untracked wilds of northern Minnesota. The fish bit hard and often, and the mosquitoes proved they were not vegetarians. . . . Frank Biedka, in preparation for a trip to the same state, shipped his outboard by express so that when he arrives he can devote all his energy to snaring a few whoppers. . . . Glenn and Mrs. Cartwright drove up north of Mercer, Wisconsin, in the Land-O-Lakes region for a few weeks of rest and fishing. . . . Others probably have the same idea in mind to help in stretching the red points.—*Thad Olechowski, Branch Correspondent.*

WEST SIDE

It's vacation time. Time for all weary men to relax and play. The following have declared themselves eligible: Earl P. Boulger will spend the next eight weeks at his summer home at Delta, Ontario, breathing Canadian air, chasing the bigger, care-free muskies and getting ready for winter's rigors. . . . Frank G. Conklin is shooting the rapids on the "Rapid King" on his way to Montreal. From there he will sail the St. Lawrence waterway stopping at Manoir Richelieu, Quebec, continue sailing up the Saguenay River which will bring him to his summer home at Pine Lodge, Beverly Lake, Ontario, where he will stay until the latter part of September. Frank has been stocking the lake with bass for the last ten years, and now they are so numerous he spends considerable time removing them. Conklin's nephew, Lt. Commander Robert F. Tuck, presently stationed at Great Lakes, will pass August with his uncle at Pine Lodge. . . . After settling in his new beautiful home in Oak Park, R. H. Johnson will go to his summer home at Port Huron, Michigan, for the month of August. The fish are plentiful and strike on nearly everything you throw at them. . . . W. J. Serritella will vacation at his 100 acre farm in Donaldson, Indiana, feeding his 2,000 chickens. . . . William Carrane and Frank Kropik are vacationing by seeing

Chicago first. . . . Irwin J. Altheim writes that he and some of his buddies from the Cook County Hospital Unit are seeing the beautiful sights of London. . . . Captain James De Biase has been retired from active service and has joined his wife and two children, John Robert, five years and Lucille Marie, fifteen months. Activated October 4, 1943, he was assigned to Ellington Field, Houston, Texas, where he served with the Army Air Forces twenty-one months until his retirement. Following a brief rest, James will be looking around for a new location. . . . After twenty-seven years of service on the West Side, Sam Rakow decided to follow his doctor's advice and discontinue the practice of dentistry. His excellent and well established practice at 4010 West Madison Street was taken over by Sam Sherman who recently returned from active military service. Rakow plans to spend the summer months in Chicago and winter months at his brother's ranches in California and Arizona, until his health is completely recovered so that he can again resume the practice of dentistry. . . . Commodore Michael De Rose brought in his spic and span cruiser from Waukegan and will ride the waves and cruise along the shores of Lake Michigan. Michael says, "All members are welcome aboard every Sunday morning at Belmont Harbor." . . . Too busy to think of vacation plans and almost completely recovered from the long ordeal is Harold Epstein, father of Barry Allen, seven pounds, ten and one-half ounces. . . . J. Ehrlich helped the stork deliver a bundle, not laundry, but a girl Elyse, six pounds four ounces. Congratulations fathers! Are you all through passing out the cigars?—*Maurice C. Berman, Branch Correspondent.*

WEST SUBURBAN

About forty golfers can attest to the success of the West Suburban outing held at St. Andrews, June 20. The threatening weather made the dinner a bit more popular than golf as there were

more members using spoons at the table than on the fairways. One foursome, Frakes, McNamara, Hanson and Tittle, had enough after nine holes while Fred Hawkins gave up after three. In addition to door and guest prize awards, golf prize winners in their order were: H. E. Van Kannel, E. J. Sullivan, N. J. Grunt, E. M. Moore, E. L. Irish, H. J. Buchner, E. I. Humphrey, B. T. Meehan and L. J. Braun. H. P. Westaby was rewarded for playing the most golf on his eighteen hole round. There must have been collusion between one foursome and the party who selected the holes for the Peoria system of scoring because said foursome, Van Kannel, Westaby, Irish and Buchner, all carried home prizes. The chicken dinner was enjoyed by all including Foster Robeson, who came in late because of a little difficulty he had in lighting a perforated cigarette. A hearty thank you to John VanDenBrink for a successful day. . . . Art Skupa has moved out of our boundaries into the Northwest section of the city. . . . According to John Madell there is nothing like flying for travel in these days when time is so valuable. He has held a private pilot's license for three years and flies his own cub cruiser which he will use this weekend to visit a brother in South Dakota. . . . The following members are serving as branch correspondents for the coming year—Beulah Nelson, Ed Kritzke, Al Mayer, Fred Schulz and Frank Young. Kindly pass along news items to them.—*Richard Anderson, Branch Correspondent.*

ENGLEWOOD

Just took a refresher course—been getting a little careless so that castings have been a trifle rough. I called up Harry Spiro and now I am doing enviable jobs again. Went over to the hospital to do an extraction and found I had everything but the procaine, so borrowed some from Dave Handler—no charge. Just use your friends, boys, use your friends! . . . Had a little visit with Franklin Porter, who had been in Okla-

homa and had spent two days studying the remains of an old Indian ceremonial mound. Also found out from him (Franklin, not the Indian) that Axel Alson, after a long stretch in the Aleutians, is stationed in Topeka, Kansas, at present. . . . Fifty-five Englewood golfers frolicked around Navajo Fields and eighty were present for the dinner at our annual outing. There were prizes for everyone and *cigarettes*. Chairman Laederach wore himself out working on the program and as a result shot the worst game in his long career. Now he's going to Michigan for a rest—and some golf! . . . Boles Gobby promised me a news item but when I called him up he was sitting there waiting for the painters who hadn't appeared, and when I hung up was still commenting about painters or something or other. . . . President Phillips is so busy working on the committees that he is foregoing his vacation. He already had two fishing trips this year—once it was too wet to get out, and too cold the other time. Nothing like a good honest fisherman for president. . . . Ed Werre, Gus Solfronk and Bill Shippee came home alive from their Canadian fishing trip. Ed said a big fish broke his line but Bill and Gus pulled him out; Bill had trouble with his knee but Ed and Gus pulled him out; Gus got stuck in the quicksand but Ed and Bill pulled him out. That information was relayed from seven different sources so if you can put it together in a more coherent form, go ahead, and you'll probably be just as correct. . . . Rodney Marks has joined the Calumet Country Club. He wants to be a legitimate listener to Ike Harris' walkie talkie. . . . John Hospers has planned a cruise plumb 'round the Great Lakes—that sight should make him realize how small a root canal really is, like I always have. . . . Chet Wendelsdorf went fishing—the trip was from here to Hayworth, Wisconsin, or the fish were from here to Hayworth, or, well, he was still talking when I hung up. . . . Vince Milas says he is going back to Dewey (lake). Can't get that name out of his mind. . . . Hear that Ray Ander-

son is all set to resume practice at 95th and Vanderpoel. . . . Ray Watkins is with the Air Force in Shreveport and busy as a bee keeping them flying. . . . Frank Murin, who was in town the latter part of May, now is on the Pacific aboard the hospital ship, Maryland. . . . Peter B. Christensen, serving in Burma, has been promoted to the rank of major. . . . As the Illinois Assembly closed its 64th session last week the bill licensing dental hygienists passed the house and senate and is now awaiting the governor's signature. . . . F. J. Hoffman has opened an office in our building, where he will spend three days a week. . . . Gave Tom McCarthy a buzz for some news but he thought he'd just bum around close to home, keep away from the telephone and MAYBE take a look at the bangtails. Would I go along? Well, that's what I was fishing for, or should I say horsing for? . . . Better tell about myself to be sure it gets printed. Going down to St. Louis by plane Saturday afternoon. Bill Bray says that ought to keep me warmed up for quite a while. . . . We note with regret the passing of our friend and neighbor Egnar Nystrom. Our sympathy to his family and to Kenwood branch.—*Webster Byrne, Assistant Branch Correspondent.*

KENWOOD-HYDE PARK

From June 23rd to the 26th, a Tweed Orthodontic Study Group were the guests of Dr. Lou Braun, of Detroit, at his summer place on an island in Lake Orion, Michigan. Ben Herzberg was among those present at this very interesting meeting and outing. . . . Gramps Libberton and his side kick, Larry Johnson, have just closed up shop for a couple of weeks and I am told that Gramps bought himself a pair of hip boots and is going to do a little wading for trout as the guest of his very good friend, Ernie Dunn, the exodontist. . . . At the Kenwood-Hyde Park golf outing, those in attendance were greeted by a fine day for golf. The lamp lighter of

Wanted: Ethical dentist is willing to help busy dentist three days a week. Address G-6, The Fortnightly Review of the Chicago Dental Society.

Wanted: Dentist with 14 years experience recently released from service desires association with loop practitioner. Prosthodontia preferred. Have own Ritter equipment including new X-ray. Kindly give full particulars in reply. Address G-8, The Fortnightly Review of the Chicago Dental Society.

NEWS OF THE BRANCHES

(Continued from page 20)

Stony Island, Ed Budill, was so tired after closing up at 2 A.M., that he managed to get more strokes than anyone present, and won the best prize. No one present, whether he played golf or merely galloping dominoes, failed to obtain a prize. There were probably a few thousand cigarettes intended for prizes left over, so the committee must be well supplied for the duration of the shortage. Among the group were two of our members who have recently returned from the service, namely, Emanuel Katz and Arnold Frisch. Even our president-elect, Bob Pinkerton, came out to break par, but it seems he missed by a few strokes. A guest of Ben Herzberg's, Dr.

Charles Adelstein, of Cleveland, readily admitted that the boys of Kenwood knew how to put on a golf outing. . . . Just received a letter from Lt. (S. G.) Jules L. Greenwald, who has for some time been stationed with the U. S. Marines at Camp LeJeune, North Carolina, and who can tell why it is that the Marines are so frequently able to hoist the American flag. . . . Many of the Kenwood members were visited by Capt. E. E. Jacobson who was spending a few days in Chicago after having been through the campaigns in North Africa, Sicily, Italy and France. . . . Send news for the next issue to Mort Isay, 1525 E. 53rd St.—Ben L. Herzberg, Asst. Branch Corr.

Doctor . . .

There's a new, modern, different world on its roaring way.

What are you going to do when your "patients" will want to spend ALL their money on an automobile, travel, kitchen equipment, a new modern home . . . ?

What are you going to do when they aren't "rolling" in money?

Make your plans today to meet those conditions, head on.

Make them BELIEVE in you; make them LIKE you; give ALL of them opportunity to use your skills . . . NOW, tomorrow.

Use the SMILES System.

YOU . . . get PAID . . . in ADVANCE

Tell your patients that they can have all the dentistry they need, NOW. Tell them that they can bring all of their family in and get the dentistry they need, NOW.

Then, tell them about the SMILES System . . . how it enables them to have all the dentistry they need, when they need it, and . . . it enables them to pay for it out of income, over a year, in small, easy, monthly payments . . . with NO down payment . . . and a first payment due only after thirty days.

Your patients will listen in gratitude. They want complete dentistry. They can't pay for it except as indicated. They'll accept your proposal gratefully. You will be winning a

Dental CARE won't hurt you but NEGLECT will!

How easy to put off seeing your dentist! But how much EASIER to see him soon! Today. Tomorrow. Easier on your smile, easier on your disposition, easier on your purse. It's only when we delay going, and neglect our teeth that TOOTH DECAY takes over and steals our good sound teeth away from us, gives us pathetic-looking smiles, irritating aches, and a lot more ills for our dentist to cure. He can help you NOW. He takes the hurts away. See him soon.

Ask him how to get complete dentistry NOW and PAY out of income, the SMILES way, over a year, with NO down payment, first payment in 30 days. All necessary arrangements can be made in the privacy of your dentist's own office.

Smiles, inc.

stout, loyal clientele for any tougher years that may come.

Ethical, famous SMILES, inc. sends patients in to you . . . takes the collection load off your shoulders . . . enables you to sell them ALL the dentistry they need . . . wins the liking and belief of your neighborhood, for you . . . and YOU get PAID in ADVANCE.

When you suggest the SMILES System to your patients.

Smiles, inc.

25 E. Washington St. • Chicago 2, Ill. • FRA. 1593

[We have made the following arrangements with the Chicago Dental Society: Whenever a patient calls us asking for a dentist, we contact the Society and they furnish us the names of three members, selected in rotation according to the Postal zone. We will then give these names and addresses to the patient. No recommendations are made by the Chicago Dental Society or by Smiles, Inc.]

Central 0557-58

Thanks, Doctor!

We at Standard desire to express our sincere gratitude to you for your cooperation in making it possible for us to enjoy an urgently needed vacation this year.

Thanks to your consideration and generosity we have had a week of rest and relaxation and have now returned to our work with fresh vigor and interest.

Due to your cooperation we will have a complete technical staff in all departments throughout the summer and thus will be able to give you better service and deliveries.

*Entrust your cases of all types
to us for better craftsmanship.*

CORRECTIVE WASH TECHNIC
3 Accurate Bosworth Products

Plastogum

for exact registration of the finest detail. Mixed with water, Plastogum has a putty-like consistency. The setting time is controlled to assure best possible results in muscle trimming. May be used with full compound and in full plaster technique; also in final impression with patient biting into centric occlusion. Highly recommended for Dr. McGrane procedure.

Zorite

— a bland resinous impression cement with many uses. Zorite is ideal for securing corrective wash. It is particularly excellent for the difficult lower and mucostatic impressions.

Synthetic Impression Wax

It may be painted on compound or baseplate trays as a corrective wash. Provides rounded, smooth and full functioning peripherals and post-dam without overtension. Accurately registers hard or soft areas. Has great flow under pressure and automatically relieves hard areas.

**YOU'LL
BOTH
BENEFIT**

1

You Recommend

Through your expert instructions on proper care of the mouth, and through your recommendation of Py-co-pay Tooth Powder and Brush as helpful aids to clean teeth... healthy gums... fresh mouth—**YOUR PATIENT WILL BENEFIT!**

2

Py-co-pay Reminds

TWICE EACH DAY Py-co-pay will remind your patient of you... through *you* he learned of these strictly ethical products and their adjunctive importance to the correct brushing technique which you taught.

3

The Patient Remembers

Since (in being reminded of you through Py-co-pay) the patient will be helped to remember to visit you regularly for check-up, **YOU TOO WILL BENEFIT!**

Py-co-pay

TOOTH BRUSHES AND TOOTH POWDER

The Py-co-pay Tooth Brush is recommended by more dentists than any other tooth brush. It has a small head, containing two rows (6 tufts per row) of fine, firm bristles. Available with *natural* bristles or *nylon* in a complete range of textures.

- Py-co-pay Tooth Powder bears the seal of acceptance of the Council on Dental Therapeutics of the American Dental Association. It is refreshing... and cleans with the minimum of abrasion required to remove surface stains.

*A better
process for
making better teeth*

Are "Store Teeth" obsolete in dentistry?

Take a good look at the mouths of many patients who are wearing dental restorations.

Are the teeth natural-appearing?

Honestly, in many, many instances, they are not. Actually, they look as non-vital and unnatural as the teeth that were provided for patients twenty years ago.

Of course this need not be so because Austenal Teeth by the Micromold Process feel and look like natural teeth in the mouth. They have no metal parts and are lifelike in vitality, translucency, texture, form and appearance.

YOUR VITALLIUM LABORATORY

*TRADE MARK REG. U. S. PAT. OFF.

American hands . . .
 swift and never hurried . . . able, sure,
 confident, competent . . .
 doing precision work for you.

Are you puzzled? at your wits' end?
 do you wonder *where* to turn?
what to do?

Ever use *American Service*?

Do you *ever* have more than your share of replacements that are *headaches*? replacements that didn't *feel* good to your patients? didn't *look* good to him or you? weren't *what you knew they should have been*?

Do you have replacements that bother a little when you first place them in your patient's mouth? do they *hurt* when he closes his jaw carefully, doubtfully, experimentally?

Do you stand frustrated, ill at ease, at your wits' end, in front of your patient *knowing* that the replacement *does not fit*, that it *must* be made-over with all the *wasted time* that *that* entails?

Make-overs *break down* your patient's confidence, his belief in you . . .

. . . but, *AMERICAN* replacements *fit*, and they fit immediately, the *first time* you place them in your patient's mouth.

If you'd use *American Service* you'd have *new confidence, new peace of mind*. For, *American* replacements are *precision made* by *American* craftsmen. They *look good* and they *fit comfortably* in your patient's mouth, immediately, *satisfyingly*, with no grinding or adjustments . . .

. . . that you may make more money.
